

Universal LCD / Plasma bracket AARTON5 INSTALLATION GUIDE

STEP 1

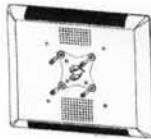

Use the "Main Bracket Body" in step 2 as a template guide to mark and drill 4 holes, 5/16th in diameter and 2" depth in the concrete.

STEP 2

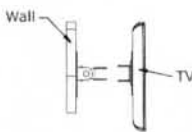

Wedge 4 wall plugs into the holes and safely fix the main bracket body using the bolts provided.

STEP 3

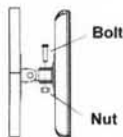

Install the LCD back plate onto the back of the screen with the bolts provided.

STEP 4

2 people should carefully hang the LCD screen with the attached screen plate onto the main bracket body with caution as the plasma screen is heavy and very delicate.

STEP 5

Use the bolt and nut to fix your screen to the bracket body.
