

CABLE MANAGEMENT

INSTRUCTION

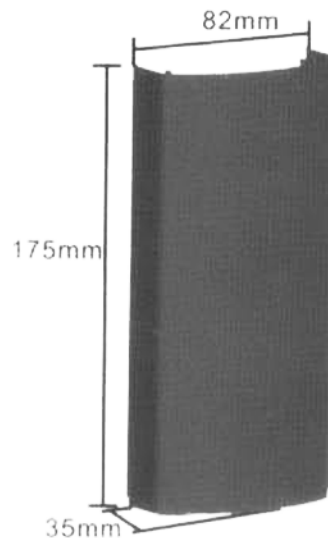

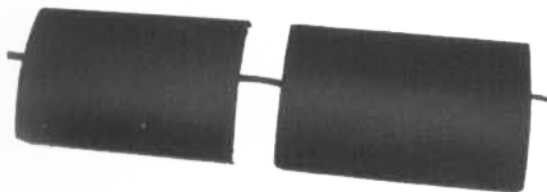

STEP 1.

1. Small steel wall plate is fixed on the wall firstly, then put cable on the plate,

STEP 2.

2. Put plastic cover on wall plate. The wall plate will keep plastic cover steadily on the wall.

Remark: two pieces of CC-2 could be fixed together.

But one color box only includes one piece of CC-2.

Please make sure the small steel wall plate will stop cover moving.
